- Regulatory compliance / review
- Professional liability
- Fraud/white collar crime
- Merger/acquisition
- Insurance claims and coverage

Support Functions

- Expert testimony
- Damages analysis
- Causation analysis
- Litigation strategy consulting
- Regulatory advisory
- Rail rate case analysis

Why Norbridge

We are subject matter experts, applying a wealth of knowledge from our transportation, logistics, and supply chain work to resolve legal disputes.

Our depth of transportation and logistics industry experience, complemented by our analytical expertise, positions us to understand the complexities of high-stakes transportation cases and present conclusions in a clear, concise, and defensible manner.

Representative Case Experience

- For an **accounting firm** (and its legal counsel), provided research and analytics in support of litigation regarding the bankruptcy of a publicly-traded truck line
- For a **railroad**, analyzed data and issued a verified statement in regulatory stand-alone cost (SAC) rate case
- For an **accounting firm** (and its legal counsel), assessed professional liability and served as an expert witness in a trucking services bankruptcy case
- For an **insurance company** (and its legal counsel), conducted damages analysis, provided litigation strategy support, and composed expert report
- For a **railroad**, served as regulatory advisor across a host of issues
- For an **oil company**, provided expert witness services for a major oil spill litigation

The Norbridge Difference

Analytics driven by industry expertise

Credibility on the witness stand as subject matter experts

Deep understanding of overall market operating environments, past and present

Intellectual capital necessary to understand specific case facts and tailor approach accordingly

Industry relationships necessary to secure reliable supporting data

Industry expertise.

Analytical rigor.

Legal experience.
